Profile

Developer with a strong educational background in Web Development. Proficient in Javascript, React, Node.js/Express.js, and PostgreSQL. Seeking a position as a Web Developer to utilize my skills and contribute to the development of innovative and user-friendly web applications.

Work experience

05/2023 – present
Remote, United Kingdom

Systems Developer **The Rolo Group**

Helped grow the digital platform by planning, designing, and implementation of the frontend platform and led the administration of the company's Microsoft Exchange/365 infrastructure.

In my role, I designed the company's original website and will be leading the eventual relaunch of the site. As such, I am currently managing the domain and DNS migration to a cloud platform.

05/2023 – present
Swindon,
United Kingdom

Freelance Web Developer

While a student at Zero to Mastery Academy and contracting with a local startup, I gained valuable experience designing static HTML webpages and web applications for clients and my own projects using technologies such as React, Node/Express.js, PostgreSQL, Gatsby.js, C#/.NET, APIs, and more.

Education

09/2023 – present
Remote,
<https://zerotomastery.io/>

Web Development **Zero to Mastery Academy**

Currently studying Fullstack Web Development with an emphasis on React, Node/Express.js along with React frameworks, APIs, and Databases. Also part of my current studies include AWS, System Design, and more.
